

Surgical washbasin with 150 mm bib made of AISI 304 18/8 stainless steel, designed for installation in operating rooms and medical procedure rooms. Its ergonomic, seamless design minimizes bacterial accumulation, ensuring a high level of hygiene and safety.

It features a touchless activation system to prevent cross-contamination.

For wall-mounted faucet installation.

Technical Specifications

- **Material:** AISI 304 18/8 stainless steel with a satin finish.
- **Dimensions:** 700 mm.
- **Installation type:** Wall-mounted (fixed to the wall)
- **Activation system:** Infrared sensor / Pedal / Elbow (depending on specification)
- **Antibacterial protection:** Smooth surface for easy cleaning
- **Safety edges:** Rounded to prevent injuries
- **Basin:** Sufficient depth to prevent splashing
- **Faucet:** Optional

Features and benefits

- **Extreme hygiene:** Seamless construction with no visible joints or welds, preventing dirt and bacteria accumulation.
- **Durability and resistance:** Made of high-quality stainless steel, resistant to corrosion and disinfectant chemicals.
- **Ergonomic design:** Rounded edges and a spacious area to facilitate hand and forearm washing.
- **Touchless activation:** Sensor-based or mechanical system to minimize the risk of cross-contamination.
- **Easy maintenance:** Smooth surface allows for quick and effective cleaning.
- **Adaptability:** Available in different sizes and configurations to meet hospital needs.

Applications

- Hospital operating rooms.
- Intensive Care Units (ICUs).
- Sterilization areas.
- Clinical and pharmaceutical laboratories.
- Medical offices.

Standards and certifications

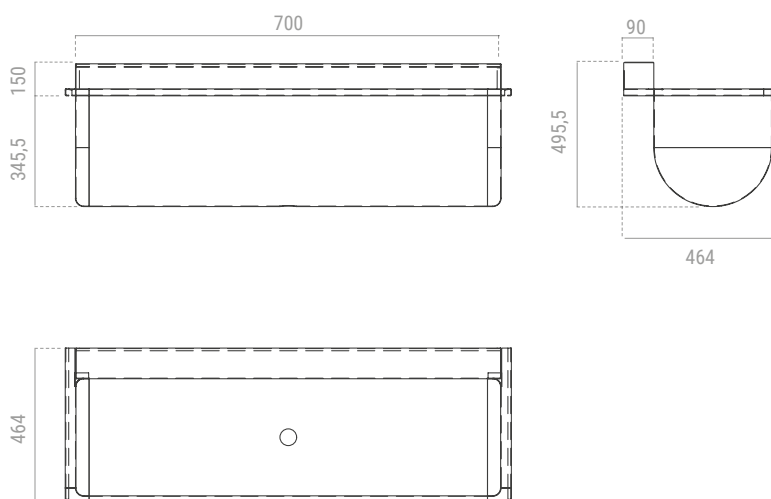

- Complies with Spanish healthcare regulations.
- Manufactured according to **ISO 9001:2015** standards.
- Compatible with **WHO** and **FDA** hygiene requirements.

Cleaning recommendations

The washbasin is made of stainless steel and **⚠ should not be cleaned with bleach, chlorine-based products, or aggressive agents ⚠** that could damage the surface. If any of these products have been used, rinse thoroughly with water to remove any residue.

Optional accessories

- Automatic soap dispenser
- Stainless steel upper shelf
- Antibacterial water filter
